**New Business :**

Carrie- We need to set up some kind of fundraiser or some big event just before town meeting, so that we can get the information out about the override.

We can do an open house at Community center, or a dance with Treg's band, something to raise awareness about the recreation department.

Treg – We now need to discuss the situation regarding the school. As a committee we all need to be on the same page.

Cass- I believe that we should be all in with the community center or not at all. The community center isn't just a place for children, its for adults as well, there will not be ample space for all the programs at the school.

Bronwyn- I would agree with Cass, we need to be firm about staying in the center, we want to expand our programs, not decrease them. If we were to move to the school then space would be limited, it fits us better to stay at the center.

Carrie- I am in agreement with you, but I think it's in our best interest to listen to what the school has offered. We shouldn't give them a proposal, we should wait and see what they are willing to offer us. It would be great if we were able to combine some of our programs with them to gain more attendance.

Jill- I make a motion that we stand firm on staying in the community center, but also wait to hear a proposal from the school committee.

Bronwyn- Second

Voted 5-0.
